

Report System 2.11.1

Release Notes

27 January 2013 AxxonSoft releases version 2.11.1 of the Web Report System. This version is intended for use with version 4.8.8 of the Intellect PSIM.

The full list of changes in version 2.11.1 is available [here](#).

New features and improvements

1. The Report System administration logic has been changed. The password of the Report System administrator can now be reset.
2. The **Protocol report** now supports displaying video of the selected event. The photos of employees can also be displayed for passing through turnstile events if the ACS/FAS module is in use.
3. A new column (Cashier №) has been added to a detailed **POS report**.
4. Most types of **Time and Attendance reports** can now be generated for multiple departments simultaneously. The feature of employee-specific report generation is also supported.
5. New **Time and Attendance reports** have been added: General report by discipline and overtime and Simple generalized report; Arrival-Leaving report has been modified.
6. For better comprehension the **reports by people counter detectors** and **reports by queue length detectors** have been renamed; the logic for creating the “Average number of people in time interval” report has been enhanced.
7. Documentation has been clarified and supplemented.

Fixed bugs

1. It is now possible to log in to web reports using Internet Explorer 10.

2. Scheduled (automatic) sending of reports now works correctly.
3. The data load frequency is now saved correctly for newly created auto-generated reports.
4. An error no longer occurs when exporting large amounts of data from Report System.
5. Fixed bug that led to displaying only the first 20 of all possible while creating an event filter in the **POS reports** web form.
6. The Time Slice on zone **Auto report** now displays data when zones are selected.
7. A number of bugs in the Average number of people in time interval **people counter** report have been fixed.
8. A number of minor bugs and documentation inaccuracies have been fixed.
