

ACFA integration modules

Version 5.1

Release notes

18.04.2014 AxxonSoft releases version 5.1 of ACFA integration modules.

For information about the system and integrated equipment, refer [here](#).

New features and improvements

1. Integration with NCG-9 net controller (Bulgaria) is now added.
2. Integration with Detectomat FAS (Bulgaria) is now added.
3. Integration with BioSmart ACS is updated. BS4, Prox-2, Prox-E and BS-Mini controllers, as well as Futronic fingerprint scanner are now supported.
4. Operator dialog box is supported in Perco S20 integration.
5. Interface of Visitor management system. The photos can be saved in the format necessary for double-check (map+face) with FaceIntellect.
6. Interface of Time and Attendance reports. Departments can be added automatically in Users or Visitor management system tab.

Fixes

1. The bugs are fixed in Perco S20 integration.
2. The bugs are fixed in NAC integration.
3. A number of minor bugs have been fixed and product stability has been improved.
4. The documentation is updated.
