

Intellect Detector Pack 2.1

Release Notes

10 November 2015 AxxonSoft releases version 2.1 of the Intellect Detector Pack collection of video detection tools. This version is intended for use with version 4.9.7 of the Intellect PSIM.

New features and improvements

1. Added new detection modules:
 - barcode detection;
 - train detection;
 - detection of moving against crowd flow;
 - detection of "cold/hot" zones of a store.
2. Object tracker has been moved to detector_ext.run module of Intellect - it is now executed in a separate Windows process.

Fixes

1. Fixed bug that caused the people counter detection module to analyze the whole frame - not the selected area.
2. Fixed bug that caused non-operation of the people counter detection module in Spanish localization of Windows.
3. Fixed bug that caused the people counter detection module to shut down after a broken frame appeared.
4. Fixed bug that caused spontaneous crashes of the queue length detection module.
